

ACKNOWLEDGEMENT OF NOTIFICATION
OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

U.S. ENVIRONMENTAL PROTECTION AGENCY
NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

Peabody, MA 01961-3599
(617) 531-0371 Telex 200212 (via RCA)

Stahl Finish is a generator of a "soft-hammer" waste (K086 -
Wates washes and sludges).

We have determined that there is treatment for this waste
and that the treatment chosen will yield the greatest
environmental benefit.

We have contracted with Cycle Chem, Inc., 217 South First
Street, Elizabeth, New Jersey 07206, telephone #201-355-
5800 to treat this waste.

The treatment is twofold. The first phase is incineration.
The second phase is solids stabilization. These treatments
have been demonstrated to be the best available
technologies for inorganic material.

This material is a California list waste and, at a minimum,
will be treated to California list prohibition levels.

I certify under penalty of law that the requirements of 40 CFR 288.8 (a) (1) have been met and that I have contracted to treat my waste (or will otherwise provide treatment) by the practically available technology which yields the greatest environmental benefit as indicated in my demonstration. I believe that the information submitted is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Stahl Finish is a generator of a "soft-hammer" waste (K086 - Water washes and sludges).

We have determined that there is treatment for this waste and that the treatment chosen will yield the greatest environmental benefit.

We have contracted with Stablax, R.I. Inc., 275 Allens Ave., Providence, RI 02905, telephone #401-781-6340. Contact Brenda Enos to treat this waste.

The treatment is twofold. The first phase is metals precipitation. The second phase is solids stabilization. These treatments have been demonstrated to be the best available technologies for inorganic material.

This material is a California list waste and, at a minimum, will be treated to California list prohibition levels.
